## THE EXPRESSION OF THINGS

Humans have a unique quality: to be able to express themselves. With the cutting-edge technologies that we master for permanent marking and engraving, we are giving this power to objects.

Laser, mechanical engraving, scribing and dot peen: we are the only ones to pioneer and master all these types of marking.

We are a manufacturer of machines, CAD software and Consumables with support all over the world.

The result of the integration of pioneering technologies, we are constantly exploring new solutions to innovate and shape the future of the Expression of Things.

We know the entire chain, from creation to production and service to provide you with the offer, best suited to your needs.

Gravotech was born in 2008 from the merger of Gravograph, Technifor and Type3 and unified under one brand in 2021.
